LinkedIn Profile

Polyglot engineer and leader with ten years of experience who excels when working with cross-functional teams and in positions where I can apply my passion for mentoring junior engineers and delivering scalable code.

EXPERIENCE

MundoMedia, Denver, CO — *Manager and Team Lead*

October 2018 - PRESENT
AppThis acquired by MundoMedia

- Team lead for ad serving & data pipeline platforms.
- Designed and built ad server capable of processing 2 billion events daily.
- Directly managed 3 junior/mid-level engineers.

AppThis, Denver, CO

Sept 2017 - Oct 2018 - Team Lead

Aug 2015 - Sept 2017 - Senior Software Engineer

- Mentored 5+ engineers, enabling them to become key contributors to their systems.
- Provided training and adoption for DevOps processes and culture.
- Contributed to the ad serving platform, including porting key serving components from PHP to Scala, migrating databases from bare metal to AWS, and redesigning serving architecture to work with AWS auto-scaling.
- Assisted in due diligence for MundoMedia's acquisition of AppThis.

IntelliFarms, Archie, MO — *Senior Software Engineer*

Apr 2013 - Jul 2015

- Delivered platform enhancements to the AWS cloud-based infrastructure for IoT devices on grain bins.
- Trained and mentored recent college graduates in full stack technologies and DevOps.
- Designed and implemented binary packet format to be sent from IoT devices.
